Fire Pump Test Meter Operating Instructions

Attached to the meter with a brass chain is an oblong metal tag with the suggested piping diagram of the system on one side, and the following operating instructions on the reverse side:

- I. Close system OSY valve "A"
- 2. Open by-pass valve and "B" butterfly throttle valve
- 3. Purge meter, located on venturi, as follows:
 - a) Open station shut-off valves on venturi, and vent valves attached to meter.
 When a steady stream of water without air bubbles passes through the clear plastic hoses, the meter is purged of air.
 - b) Close the vent valves after purging.
- 4. Start the fire pump, and read meter in GPM.
- 5. Refer to pump GPM requirement and adjust throttle valve to meet the requirement.
- 6. After the test, open valve "A" and close the by-pass and "B" valves.
